

PATIENCE CORNER

Fabric:

For each 10" finished block, cut:

- 1 print strip, 4" x 16 1/2".
- 1 coordinating fabric (solid, tone on tone, smaller print, etc.), 2" x 40" (selvage to selvage)

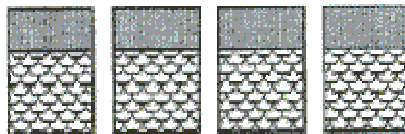

Cut off the selvages.

Step 1:

Sew the 2" strip to the long side of the 16 1/2" strip. Cut off and save the excess. Press to the 2" side.

(The extra 1/2" is an allowance for error and truing of the segments).

Cut into 4" segments. Each segment should measure 4" x 5 1/2" when cut.

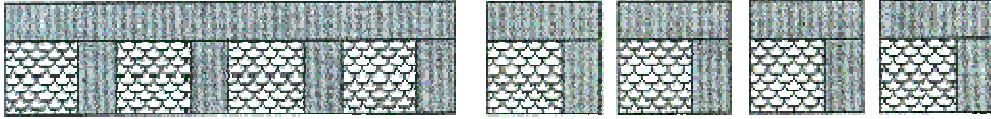

Step 2:

Sew these segments onto the remaining 2" strip on the 5 1/2" side. It makes no difference which

5 1/2" side you sew onto the 2" strip. Just be consistent with each block. Press to the 2" side.

Step 3:

Cut into 4 units. Each segment should measure 5 1/2" x 5 1/2" when cut.

Step 4:

Assemble the 4 segments as follows.
